### Kahuterawa Bush – Storm damage

The early January storm created considerable damage to Kahuterawa Bush with many trees and branches down.

## Kahuterawa Bush – Bush Repairs

Already much has been repaired. Fraser McKenzie did several days' work clearing the tracks. Nigel, Aaron, and Dave got stuck into the tree blocking the swimming hole and a fallen Kanuka Tree.

Telcospec's Bret, Shane, and Drew took their digger down and did some heavy lifting.

Downers mowed the tracks and picnic areas.

Telcospec hope to replace the bridge.
